DIVING FLASHLIGHT

Rechargeable

IP68
2000 Lumens
390 meter
IP68 100m

SPECIFICATION

LED	1*SST40	Light Modes	High, Medium, SOS
Beam Distance	390m	Color temp	5700-7300k
Battery	1*ICR26650 battery 5000mAh	Max Output	2000 Lumens
LUX	38000Lux@1m	Impact Resistance	1m
Net Weight	657g (with battery cells)	Waterproof	IP68
Beam Intensity	38000cd	Dimension	Ø 38.8*166mm
Run Time	3.5H	Viewing Angle	8.6deg

FEATURES

- Comes with high quality led chip super brightness up to 2000lumens, led lifespan >100,000hours
- Waterproof to 332 feet (100 meters), IP68
Powered by 1*26650 5000mAh rechargeable battery, run max 3.5 hours, built in USB type C input port, conveniently recharge light by included USB cable
- 3 modes-High/Medium/SOS to meet your varied illumination demand
- Aluminium alloy housing with black anodized matte finish, shockproof, anti-scratched, and 1meters drop proof
- Power indicator to master power usage conveniently, green led, when power is 70%-100%, blue led, when power is 40%-70%, red led, when power is 20%-40%, flashing red, when power is lower than 20%
- Application : outdoor activities, diving, camping, hiking, biking, hunting,trekking, caving etc.
